

MULTIPLICATION BEACH BALL POKE

Clip Art By JW Illustrations

MULTIPLICATION BEACH BALL POKE INSTRUCTIONS

1. Print out all the cards and laminate.
2. Hole punch each of the balls on the + sign with a single-hole puncher.
3. Turn each card over and circle the hole that corresponds with the correct answer.

How to play:

1. Students place cards face-up on a table.
2. Students take turns choosing a card.
3. Using the point of a pencil, students "poke" the correct ball by inserting the tip of the pencil through the hole.
4. While the pencil is inserted, students flip the card over to see if they inserted their pencil in the correct hole (the one with the circle around it).
5. If correct, the students keep their card. If incorrect, they return the card to the table.
6. Continue playing until all cards have been won. Count cards to see who has the most.

If you need a label for your storage container, here's one below. :)
